**Re: Letter of Intent to support the International Mass Spectrometry Conference in
Liverpool, United Kingdom**

To whom it may concern,

Thermo Fisher Scientific Inc. is the world leader in serving science, with revenues of more than \$40 billion and approximately 125,000 employees globally. Our mission is to enable our customers to make the world healthier, cleaner and safer. We help our customers accelerate life sciences research and to solve complex analytical challenges.

On behalf of Thermo Fisher Scientific (Bremen) GmbH, hereinafter 'Thermo Fisher Scientific' we are pleased to express our potential interest to support the International Mass Spectrometry Conference to be held in Liverpool, United Kingdom in 2030.

Thermo Fisher Scientific recognizes the important role that international scientific conferences play in advancing research, fostering collaboration, and supporting the exchange of knowledge across academia, industry, healthcare, and applied science. Mass Spectrometry continues to be a critical technology across a broad range of disciplines, including life sciences, clinical research, proteomics, metabolomics, environmental analysis, food safety, pharmaceuticals, and analytical chemistry.

Subject to further discussion and internal approvals, Thermo Fisher Scientific would be pleased to explore ways to support the proposed conference. Potential areas of support may include sponsorship, scientific contribution, participation in the exhibition, technical workshops, educational sessions, and speaker engagement to help ensure a successful and impactful event.

This letter is provided solely as a non-binding expression of interest. It does not create any legal obligation or commitment on the part of Thermo Fisher Scientific (Bremen) GmbH to provide sponsorship, financial support, or any other form of assistance. Any such support would be subject to separate written agreement, internal approvals, and execution of definitive documentation.

We look forward to the opportunity to discuss this proposed conference further and to supporting initiatives that strengthen the international mass spectrometry community.

Yours faithfully,

Thermo Fisher Scientific (Bremen) GmbH

Dr. Thomas Moehring

Managing Director & Sr. Director Market & Application Development
