Dear Mark,

On behalf of Bruker Daltonics, I am very pleased to offer my strong support for the bid to host the 2030 International Mass Spectrometry Conference (IMSC) in Liverpool, UK. Bruker Corporation has more than 11,000 employees worldwide, with more than 15 manufacturing sites globally. Advancing high performance analytical solutions is an essential part of our culture, with 2,000 employees working on research and development and more than 5,000 patents. Our mass spectrometry application areas encompass proteomics, metabolomics, MALDI imaging, pharmaceuticals, food, polymers, energy, and much more. All of these areas will be represented at IMSC, which is one of our most important events, globally. Should the bid be successful, we look forward to discussing potential sponsorship opportunities at the later time.

Sincerely,

Paul Speir, Ph.D.
Senior Vice President, Global MRMS Business
