Bid Support: IMSC 2030 in Liverpool, UK

Dear Frank,

Spectroswiss is pleased to support the bid to host the International Mass Spectrometry Conference (IMSC) 2030 in Liverpool, United Kingdom.

Spectroswiss is a regular exhibitor and sponsor of IMSC events, including IMSC 2022 in Maastricht, the Netherlands, and IMSC 2026 in Lyon, France. Should Liverpool be selected to host IMSC 2030, we would be very interested in attending and contributing to both the scientific and business aspects of the conference.

We would also expect to support the event through exhibition and sponsorship activities.

We wish the Liverpool organizing team every success with its bid.

Sincerely Yours,

/ Dr. Yury O. Tsybin, CEO
