

Reaction Monitoring Symposium

The Dynamic Reaction Monitoring (DReaM) Facility and the Centre for Sustainable Chemical Technologies (CSCT) invite academic and industrial researchers with an interest in reaction monitoring to join them for the second Reaction Monitoring Symposium at the University of Bath.

This free of charge one-day symposium will showcase the power of real-time reaction monitoring by various techniques for kinetic and mechanistic investigations in academic and industrial research. There will be an open round-table discussion, opportunities for poster presentations and networking at our vendor exhibition.

Confirmed Speakers

Prof Donna Blackmond, The Scripps Research Institute
Prof Ruth Gschwind, Universität Regensburg
Dr Ulrich Hintermair, University of Bath
Dr Michael Maiwald, Bundesanstalt für Materialforschung und -prüfung (BAM)
Dr Jackie Mosely, University of Durham
Dr David Whittaker, AstraZeneca UK

Registration: www.eventbrite.co.uk/e/reaction-monitoring-symposium-registration-47995638246

Monday 28th January 2019, 9.30 am – 7 pm
Building 3WN, University of Bath, Bath, BA2 7AY

Poster prizes provided by
Reaction Chemistry & Engineering
